## SOAR: Special Olympics Athlete Review

Special Olympics  
Pennsylvania

### ***Becoming a Well Rounded Leader***

Kristine Progin, Lebanon County Athlete Leader

My name is Kristine Progin. I'm 42 years old and I've been a Special Olympics athlete for over 30 years!

In the last 3 months I've graduated from Athlete Leadership University as an Athlete Representative, became a Global Messenger, found out that I now qualify as a certified coach & took Athletes as Coaches at Athlete Leadership University to help me better my role. Oh and I almost forgot, I also took time to conduct Athlete Input Surveys at both the Eastern Fall Sectional and also at Fall Festival. I've wanted to be a Global Messenger for quite some time, now I'm achieving that and a whole lot more that I never thought possible through Special Olympics.

I believe that once you graduate from Athlete Leadership University there are plenty more opportunities out there to learn achieve and conquer. As Athlete Leaders, it is important to spread the word about Special Olympics because we know firsthand how it has changed and shape our lives to become stronger individuals in life. Special Olympics gives athletes the courage, strength & power to succeed.

Athlete Leadership University may not be for every athlete, however if curious about it an athlete could always attend a local Athlete Leadership Team meeting or an Athlete Input Council meeting at a state games. There are always Athlete Leaders there that you can talk to and express your interests. The more you get involved with Athlete Leadership at the Local Level, the more opportunities you will have to pursue the same great opportunities I have been able to.

*Kristine Progin is an Athlete Representative, Global Messenger and Certified Coach from Lebanon County. Kristine has been participating in Special Olympics for over 30 years and was one of 21 athletes to be part of the Athlete Leadership University Class of 2017.*

## ***Helping Athletes Achieve Their Personal Bests***

Heather Thomas, Blair County Health and Fitness Coordinator

Hello, my name Heather Thomas. I am an athlete and Health and Fitness Coordinator from Blair County. For those of you that don't know what a Health and Fitness Coordinator is, it's an Athlete Leader committed to helping their fellow athletes develop a healthy lifestyle inside and outside of Special Olympics.

One of the goals within the Special Olympics Pennsylvania Strategic Plan is helping athletes improve their performance to compete at their very best. This past Summer Games was a big success for me as a competitor and leader.

As a Health and Fitness Coordinator I strive to encourage many of my fellow athletes to live healthy more active lifestyle. One of my fellow Tennis teammates, Marita Foor, really took this to heart and started to write down the days she did activity in a month which was almost every day.

At Summer Games it was the last day of our competition. We ended up playing each other for the bronze medal and she won. I was disappointed of course because I lost but she really deserved it. She did all of that physical activity so and it paid off for her in the end. I helped out someone who needed that extra fitness push! I was proud of her and felt like I was actually doing good work in our county because I helped someone with their fitness. Even though I lost, in the end, both of us won.

*Heather Thomas is a Health and Fitness Coordinator from Blair County and has been participating in Special Olympics for 14 years. Heather is currently one of 33 Health and Fitness Coordinators throughout the state and was a member of the Pennsylvania delegation during the 2006 and 2014 USA Games.*

## ***New Event Means New Opportunities***

Jordan Schubert, Athlete Leadership Coordinator

It was Wednesday, June 5<sup>th</sup> 2013. My parents had just picked me up from the train station after I returned home following starting an internship in Washington, DC. I was tired and I had three longer days to prepare for. A month before, my basketball team barely qualified for Summer Games as we were the last of the bronze medal winners drawn following the Eastern Spring Sectional. It had been over two years since I had competed at the State Level in any sport for Special Olympics and I didn't know what to expect at Special Olympics Pennsylvania's Summer Games. After a long day of prelims and sitting around, it was time for Opening Ceremonies. As soon as I walked into Medlar Field and heard over 3,000 people all excited, it was like nothing I had ever seen before. Even though my team lost two tough games and we had to settle for bronze, I thought nothing could ever match the awesomeness I had experienced at my very first Summer Games asides from maybe the USA or World Games. On March 2<sup>nd</sup>, 2019 though, that will all change.

A few years back, Special Olympics Pennsylvania had spent a lot of time researching and developing ideas on creating a new multi-sport State Competition that would allow athletes the opportunity to compete in more sports throughout the year. After sitting on the back burner for a while, it was finally brought back into discussion. After a lot of hard work, this new event, the Indoor Winter Games, will become a reality in 2019.

The Indoor Winter Games will consist of four sports: figure skating, speed skating, bowling and my winter time sport, floor hockey. By having these sports in one event, it will allow athletes to be able to do the following:

- Athletes that compete in alpine skiing, cross country skiing or snowshoeing at Winter Games can now compete in figure or speed skating and vice versa.
- Athletes that compete in bowling can now try to qualify for Summer Games in another sport and even more athletes can now try to qualify for bowling at the Indoor Winter Games.

While the Indoor Winter Games won't change anything about the sports I compete in, it will give floor hockey a bigger presence at the State Level. Floor Hockey, as well as other major events like Opening Ceremonies, Olympic Village, Healthy Athletes, etc. will all take place at the York Expo Center. While I've only seen pictures, the York Expo Center looks like it can hold more spectators at the floor hockey venues and will be an ideal location for extracurricular activities once athletes

are finished with competition. With the bowling and skating venues being within close proximity of the Expo Center, this will allow all athletes a chance to get a taste of everything the Indoor Winter Games will have to offer.

Another great thing about this event being in York is that it's not too far from the State Capitol in Harrisburg. This will allow Government officials a chance to take part in the event and learn how they can best support Special Olympics Pennsylvania at all levels. Harrisburg is also Pennsylvania's third largest media market, which will increase the publicity of the event and lead to more volunteers, sponsors and Fans in the Stands.

What I'm really looking forward to though is being a part of the greater Montgomery County delegation. Many of you know that I live in and play basketball in Chester County. Chester County does not have a floor hockey program, so two years ago, I decided to join Montgomery County's program because it is close to my office and I already had developed great relationships with some of the athletes and coaches. Not only have they welcomed me in as an outsider, they have also welcomed in athletes from Bucks and Philadelphia. By going from a single to a multi-sport event, I'll be able to make even more friends in the Montgomery County area.

The Indoor Winter Games were not created because Special Olympics Pennsylvania's Staff and Board thought it would be a good idea. Ok, that's part of the reason. The real reason though is because this is what we, the athletes want. For the first time in over 14 years of participating in Special Olympics, I'll get to be part of an inaugural event. On March 2<sup>nd</sup>, 2019, my hope is that each athlete gets to feel exactly what I felt the first time I attended Summer Games. Even though the first Indoor Winter Games is still over a year away, it's never too early to share your ideas on how Special Olympics Pennsylvania can make this event something athletes, coaches and family members can look forward to each year for several years to come.

*Jordan Schubert is the Athlete Leadership Coordinator for Special Olympics Pennsylvania and is an athlete in Chester and Montgomery County. Jordan has been participating in Special Olympics for 14 years and graduated from West Chester University in 2015.*

## 2017 Summer Games/Fall Festival Athlete Input Survey & Athlete Input Council Results

New Grading System: As a way to help Special Olympics Pennsylvania staff and the Games Organizing Committee better understand how to improve each event, Athlete Input Survey responses are now graded using a formula that best interprets overall athlete satisfaction.

How it Works: Percentage of answers selected as "Excellent"/"Better" plus one half percentage of answers selected as "Average"/"Same) divided by X (X=Total # of graded questions) = Overall Grade

Example: 80% Excellent + 20% Average  $\div$  2= 90% (A-)
