

Special Olympics Pennsylvania: Return to Activities

Special Olympics Pennsylvania (SOPA), like the rest of society, needed to determine the safest and most prudent way to reopen after the shutdown caused by Coronavirus Disease (COVID-19). After thorough consultation and deliberation, a [Return to Activities](#) plan has been developed which prioritizes the health and safety of everyone involved.

Guidance is based on current medical information available at the time of publication. As knowledge of COVID-19 is changing rapidly, guidance will evolve. Guidance takes a phased approach that is dependent on local transmission rates as well as testing, monitoring, contact tracing and health system capacity.

Throughout this document “participants” are defined as all athletes, Unified partners, coaches, volunteers, family members, caregivers, staff or others in attendance of an activity.

Pennsylvania: Substantial Level of Community Transmission	Pennsylvania: Low or Moderate Level of Community Transmission			
<u>SOI: Phase 0</u> (Stay at Home)	<u>SOI: Phase 1</u> (≤ 10)	<u>SOI: Phase 2</u> (≤ 50)		<u>SOI: Phase 3</u> (No size restrictions)
SOPA: Phase A (Stay at Home)	SOPA: Phase B (≤ 10)	SOPA: Phase C (≤ 25)	SOPA: Phase D (≤ 50)	SOPA: Phase E (≤150)

All participants must adhere to the following:

- Participants are required to wear face masks. Participants must wear masks while actively engaged in workouts and competition as well as when on the sidelines, in the dugout etc. unless they fall under an exception listed in Section 3 of the [Secretary of Health’s Universal Face Covering Order](#). The site must have face masks/PPE available for those who are unable to bring.

- Participants must bring their own water and drinks to activities. Team water coolers for sharing through disposable cups are not allowed. Fixed water fountains should not be used.
- Whenever possible, equipment and other personal items should be separated and not shared. If equipment must be shared, all equipment should be properly disinfected between participants.
- Avoid shaking hands, fist bumps, or high fives before, during or after training/competition. Limit unnecessary physical contact with participants.
- Ensure that the venue is disinfected or sanitized, especially bathrooms. Site should have adequate hand washing facilities. If not, hand sanitizer must be made available.
- Activities that increase the risk of exposure to saliva are not allowed including chewing gum, spitting, licking fingers, and eating sunflower seeds.
- Participants must maintain appropriate social distancing at all times possible, including in the field of play, locker rooms, sidelines, dugouts, benches, and workout areas. During down time, participants should not congregate.
- Participants are not to congregate while awaiting pick up/drop off.
- Limit entrance and exit traffic, designate specific entry to and exits from facilities. Ensure staggered pick up and drop off for training and competition; participants are not congregating while awaiting pick up; congregation or crowding does not occur on drop off. Pickups and drop offs remain outside.
- Low Level:
 - Local Programs cannot travel in passenger vans or buses.
 - Transportation is allowed outside county lines to train and compete.
- Moderate Level:
 - Local Programs cannot travel in passenger vans or buses.
 - Transportation is not allowed outside county lines to train and/or compete.

- SOI provides the following guidance:
 - As much as possible, participants should travel with members of their families and/or individuals with whom they live with.
 - Additionally SOI highly recommends that participants should avoid the use of public transportation.
 - SOI continues to state if participants are carpooling with someone who does not live in their home, participants are to practice social distancing and wear a mask. Hand hygiene must also be followed and enforced. (This would limit 4 per car maximum and 6 per vehicle maximum provided there is three rows of seats.)
 - Additionally the CDC recommends no shaking hands or touching, and asking the driver of any carpool to put a window down if possible.
 - In addition, SOPA requires the COVID-19 Coordinator or a trained volunteer conduct the screening protocol and complete the Screening and Track
- Prior to returning to any in-person SOPA activities in Phases B through E, participants are required to complete and return [COMMUNICABLE DISEASES PARTICIPANT \(ATHLETE AND VOLUNTEER\) RISK](#) which provides information and guidance on assessing risk and acknowledges that participation could increase risk of contracting or spreading COVID-19
- Participants must not participate in any activities if they are sick, for their own health and to reduce transmission of any infections to others.
 - Participants who are found to have COVID-19 symptoms must wait 7 days after symptoms resolve to return to activity or must provide written proof of physician clearance to SOPA to return earlier.
 - Participants who test positive for/have COVID-19 must provide written medical clearance before returning to activity.
- Prior to entering an activity, practice, event, or gathering, participants must answer the following questions:
 - In the last 14 days, have you had contact with someone who has been sick with COVID-19?
 - Have you had a fever in the last week (temperature of 100.4°F/37.8°C or higher)?
 - Do you have a cough and/or difficulty breathing?
 - Do you have any other signs or symptoms of COVID-19 (fatigue, muscle or body aches, headache, new loss of taste or smell, sore throat, congestion or runny nose, nausea or vomiting, diarrhea)?
 - If yes to any questions, participants MUST be isolated from the group (at minimum, kept 2m/6ft apart from others and with mask on), be sent home, and instructed to contact their healthcare provider for evaluation.
- Have onsite measurement of temperature taken.
 - If individuals participating in activities show symptoms, have a temperature of 100.4°F/37.8°C or higher, or are sick, they must be sent home.
 - If high, may re-test after 5 minutes to ensure temperature is accurate.
- Maintain physical distancing of at least 6 feet between all participants.
- Place markers on the ground to indicate 6 feet.
- Remind participants to maintain their distance.
- Shared equipment is not allowed until Phase E.
- Participants should not touch the outside of their mask.
- Do no scratch or touch their face mask.
- If sneezing, coughing, or yawning without a face mask on, participants should cover their faces with a tissue or elbow (not their hands) and throw away any tissues and wash their hands immediately.
- Use verbal and visual signs to remind participants about hygiene, standard infection prevention, physical distancing, and use of personal protective equipment.

Special Olympics Pennsylvania: Return to Activities (Phases)

Phase A: All virtual. No in-person activities				
	Phase B	Phase C	Phase D	Phase E
Participation	Maximum of 10 participants	Maximum of 25 participants	Maximum of 50 participants	Maximum of 150 participants
High Risk	High Risk participants must stay home	High Risk participants must stay home	High Risk participants must stay home	High Risk participants may attend, provided all necessary precautions are taken
Competition	No in-person competitions Virtual State & Sectional events Virtual Honor Code enforced	No in-person competitions Virtual State & Sectional events Virtual Honor Code enforced	Local in-person competitions allowed Virtual State & Sectional events Virtual competition options available, Virtual Honor Code enforced	In-person competitions allowed with adjustments to accommodate a max of 150 people in attendance at any single facility.
