Individual Skills Reminder

When completing your individual skills -

- if a bocce hits the pallina and lands on the tape X where the pallina is stationed
- The pallina will be returned to the X and the bocce will be placed behind the pallina touching it
- The remaining balls are thrown,
- If the bocce is still behind the pallina, the measurement would be zero

How To Measure

- Place the zero end of the tape measure at the side center of the bocce ball,
- Pull the measuring tap across the top of the bocce ball.
- The measurement is the distance at the top center of the pallina.

Bocce Measuring Cans

Bocce Measuring cans will be used at

- Some Sectionals
- State Games

for measurement of the “in” ball during competition.

The cans will measure from the top center of the palina to the side center of the Bocce.

Please note this is in reverse of measuring from the Bocce to the palina. As long as all balls are measured using the same technique during the game this is fair to all double teams.

Athlete Performance Training

Coaches Introduction

**Special
Olympics**
Pennsylvania

What is Athlete Performance Training (APT)?

- Designed to elevate the fitness levels of athletes and improve their sports outcomes, Athlete Performance Training consists of a combination of coach-facilitated sports practices and at-home fitness programs.
- During practices, coaches will apply an approach that includes education, exertion and evaluation.
 - Education:** Time is taken during each sports practice to discuss physical activity, nutrition, and hydration as a team.
 - Exertion:** A practice plan is followed that engages athletes in physical activity throughout the entire practice.
 - Evaluation:** Athletes' health and fitness metrics are collected at the start and end of the season.
- At home, athletes and their families/caregivers are provided a fitness program to complement the in-person practices.

Key Aspects of APT:

- A minimum of 8 weeks of training are required to fully complete APT.
- Any size team and any sport can participate.
- Health metrics of athletes are collected and recorded electronically on a Google sheet provided to you by SOPA.
- Health metrics: Height, weight and blood pressure can be collected from athlete's previous doctor visits.
- Fitness metrics: Determined by coaches completing a modified Coopers Test at the start and end of training and recording results.

Registering for APT:

- COVID-19 Coordinators when completing their **Site Registration Form** via Google Forms are asked if they are interested in participating in the Athlete Performance Training. COVID-19 Coordinators can express interest on behalf of their coach.
- **Or** a coach can visit the Online Portal to complete the necessary online training.
- The training can be found under the "**Training Schools, Webinar and More**" tab, labeled as "**Athlete Performance Training.**" You will only be able to access the training if you've taken your other required trainings (Concussion Training, General Orientation and Protective Behaviors).
- You will be contacted by SOPA, after the training with additional information regarding mailings of materials as well as a link to the Athlete Performance Training Tracking.

To find more information on APT visit the SOPA website under **Commit to Fit**

Coaches Training and Progression Plan

By implementing Athlete Performance Training for a minimum of 8 weeks during training AND completing the "Athlete Performance Training Tracking" at the start and end of the season, you are eligible for the **Bronze Level** specifically the Athlete Performance Training component of the Coaches Training and Progression Plan.

Weekly Training Plans

Elements of a Training Plan

1. Arrival
2. Warm-up
3. Skills
4. Competition situations
5. Cool Downs
6. Athlete Performance Training (APT)
7. Water Breaks

Arrival & Warm-Up

Arrival

- Coach - Greets the athlete and starts them on their warm-up

Warm-up - 10 - 15 minutes

- 2 laps around the field - walk, speed walk, jog, run, etc.
- Exercises that get the heart pumping
- Ex. Jumping Jacks, High Knees, arm circles
- Warm- up each part of the body

Skills & Competition Situations

Skills - practice the basics of the sport

- Rolling the pallina & Bocce to different distances
- Use the skill tests (pallina at 30, 40 and 50)

Competition Situations - Fun activity that includes the skills of the game or fitness components

- Who can get closest to the Pallina?
 - Using a direct roll
 - Using rails
 - blocked by another ball
- 3 frames or 5 frames game

Cool Downs

Cool Downs - 10-15 Minutes

- 2 laps around the field/court/parking lot - walk, speed walk, jog
- Exercises that slow the heart down
- Ex. Reach for the sky, lean to the left, right etc.
- Cool Down each part of the body

At this time remind athletes

- Next Practice or information on upcoming event
- Stretch before bed - Every night (use cool down stretches to build flexibility and prevent injury)
- Bring your own water bottle

APT & Water Breaks

Athlete Performance Training

- APT can be completed with warm-ups & cooldowns
- Remind athletes 5 bottles of water and 5 fruit and vegetables a day.
- Cooper Test - Complete the 2nd week of training and the 8th week of training.
- At Home Fitness Training - should be done the days you are not at practice.
