Lists in V/Sys

Leadership Conference 2016 Carolyn Kushner and Karen Meade September 10, 2016

What is a list in V/Sys?

- A LIST is a simple list of names.
 - It is like a note you keep for yourself that you will use later.
 - Lists only have names, no other information and can't be easily printed.
- Use these rules when naming your list
 - Use your program name as the first part of the list so you can easily find it.
 - You may or may not want to put the year in the name. If you put a year in, you can change the name when the new season begins.
 - An example: Bucks Bocce 2016 or Adams County Athletes

What decisions do I have to make before adding people to my list?

- There are 2 kinds of lists REGULAR and INTELLILIST
 - Regular lists do not change. Whoever you put on the list when you create it, stay on the list until you delete them.
 - Intellilist are created by telling V/Sys criteria for people on the list. Each time you view the list V/Sys finds all the people who fit your criteria. If you create a list of athletes on Monday and someone adds an athlete on Tuesday. On Wednesday when you pull up the list, the new athlete will be on it.
- There are 2 kinds of lists PERMANENT and TEMPORARY
 - Permanent lists will be there when you sign-on to V/Sys again.
 - Temporary lists will disappear when you sign-off of V/Sys.
- There are 2 kinds of lists PRIVATE and PUBLIC
 - Private lists are only visible for you.
 - Public lists are available to anyone with a V/Sys sign-on.

How do I get names on a list?

- You can enter names on the list one at a time OR you can select a GROUP of people and add them all at once.
 - You can even right click on a name you have retrieved and add it to a list that way.
- Once you have a LIST, you can COMBINE it with other lists.
- You can remove names from the list by right clicking on the name and selecting delete

What can you do with a list?

- REGISTER people for games one click registers all the people on the list.
- Create MAILING LABELS for people on a list. (Example: George's problem)
