DETAILS: Special Olympics Unified Sports® creates an opportunity for people without intellectual disabilities to join in the sports experience by playing on a team with athletes with intellectual disabilities. Not only do the players all have fun, but attitude change and transformation happens on the playing field and the experiences create lifelong friendships.

Unified Sports® combines approximately equal numbers of Special Olympics Athletes and athletes without intellectual disabilities (called Partners) on sports teams for training and competition. Age and ability matching of athletes and partners is defined on a sport-by-sport basis.

The concept of combining athletes with intellectual disabilities and those without was first introduced in the mid-1980s to provide another level of challenge for higher ability athletes and to promote equality and inclusion.
